

BOOK MOBILE

Title _____
Author _____
Mobile by _____

Character _____
Description _____

1. To create a personalized book mobile, select a book you have read recently.
2. Then cut out the top circle on the left and fill it in.
3. Think of several characters from the book. On a separate sheet of paper, cut out blank circles (using the bottom circle on the left as a guide), one for each character you want to create.
4. Make a face for each character, using construction paper, yarn, crayons, felt-tipped pens, and so forth.
5. On the back of each face, write the name of the character and something about him or her.
6. Glue or tape pieces of string or yarn in assorted lengths to the back of each face. Attach the strings to a plain wire hanger to complete the book mobile.
