

How To Make "Ramona Stilts"

Materials Needed:

- 2 Large cans the same size (recommend coffee cans)
Note: The cans must be large enough to stand on.
- 2 six feet pieces of HEAVY cording or rope.
Note: It must be heavy so that it is not "cut" by the openings in the can. It should also not be too rough for the childrens' hands.
- Can opener

How to Make the Stilts:

- Wash cans.
- Make 2 holes in the bottom of the can opposite of each other with the can opener.

- Thread the rope/cording down through one hole in the can and out of the second hole.

- Tie a square knot at the end of the rope/cording.
How to make a square knot:
"Right over left and under, left over right and through"
